公司简介

Company Profile

辽宁新福源精密制造科技有限公司位于辽宁省台安县，占地面积15万平方米，主要从事矿业和工业产品备件，回转支承等的设计和生，工艺水平高。经多年发展壮大，现主要产品分为11大类，应用领域涵盖矿业、冶金、工程机械、化工、船用备件、风电、核电、军工航天、清洁能源等。

辽宁新福源精密制造科技有限公司秉承“诚信为本”的质量方针将产品质量作为企业生存的根基。公司通过ISO9001质量管理体系认证，从产品的原材料开始，对铸、锻、热处理、加工、装配、检测等每个环节安排专人进行严格把关。现有大型14米，6.3米数控立车，大型8M数控滚齿机，10M数控铣齿机，及相关镗、铣、刨、钻等配套设备，针对大型备件加工能力强。我们的质量方针就是“产品是打开市场的钥匙，走向世界的桥梁，市场竞争的根基”。

从事机械加工制造多年来，新福源积累了丰富的经验，不断对科研有投入，优化生产手段，配备相关生产检测设备，使产品制造工艺及装备具有良好水平。同时，在发展过程中，注重诚信经营，有着稳定的供应商和合作伙伴，这使我们的产品在国内市场的拓展上奠定了坚实的基础。新福源坚持以质量为立足根本，努力为用户提供品质、服务都满意的产品。

Liaoning Newfoton Precision Manufacturing Technology Co., Ltd. is located in Tai'an County, Liaoning Province, covering an area of 150,000 square meters. It is mainly engaged in the design and production of mining and industrial product spare parts, slewing bearings, etc., with a high level of technology. After years of development and growth, the main products are now divided into 11 categories, with application areas covering mining, metallurgy, engineering machinery, chemicals, marine spare parts, wind power, nuclear power, military aerospace, clean energy, etc.

Liaoning Newfoton Precision Manufacturing Technology Co., Ltd. adheres to the "integrity-based" quality policy and regards product quality as the foundation of enterprise survival. The company has passed the ISO9001 quality management system certification. Starting from the raw materials of the products, the company conducts casting, forging, heat treatment, processing, assembly, and testing. Wait for each link to arrange a special person to strictly check. The existing large 14m, 6.3m CNC vertical lathe, large 8m CNC gear hobbing machine, 10m CNC gear milling machine, and related boring, milling, planing, drilling and other supporting equipment, have strong processing capabilities for large spare parts. Our quality policy is "products are the key to open the market, the bridge to the world, and the foundation of market competition."

Engaged in mechanical processing and manufacturing for many years, Newfoton has accumulated rich experience, has continuously invested in scientific research, optimized production methods, equipped with relevant production testing equipment, and made the product manufacturing technology and equipment have a good level. At the same time, in the development process, we pay attention to integrity management and have stable suppliers and partners, which has laid a solid foundation for our products to expand in domestic and foreign markets. Newfoton insists on quality as the foundation, and strives to provide users with quality and service satisfied product.

Face more ambitious goal!

质量是企业的生命线

在企业不断的发展中，新福源都竭心尽力，一直坚持“质量是企业的生命线”的企业理念，以自身的发展缔造高品质的产品。

Quality is the lifeline
Newfoton insist on "quality is the lifeline" to product high quality products.

重执行、戒空话

任何卓越的企业都必须有强大的执行力。只有有了强大的执行力，他们才能够落实，才能够发挥作用。

Emphasize execution, stop empty words
Every excellent enterprise should have powerful execution; the policy can be carried out by powerful execution.

企业文化

Company Culture

低质量产品我们不做

高质量产品是企业取得消费者信赖，带来企业竞争优势，减少竞争压力，超越竞争对手的重要保证。

No low quality products
High quality products always win the customer trust, and bring competition advantage. High quality products always reduce competition stress and surmount competitors.

循序渐近，勇于创新

新福源是一个激情豪迈，富有创新勇气的公司。循序渐近，勇于创新，在前期科研基础上，总结经验，继而打破常规，突破束缚，创造新产品，提供新的生长力量。

Innovation step by step
Newfoton is passionate and creative, on the basis of scientific achievements, Newfoton summarize experience, break the routine and create the new products to gain growth power.

NFB回转支承的显著特点如下：防水，防尘，防风沙；耐热，耐寒，耐腐蚀；精密，分体，高承载。特殊要求，特殊设计，特殊定制。

产品主要应用于军工和新能源开发、医疗设备、环保水下设备、高精度生产线、海上平台、近海设备、矿山机械、旋转输送装置、冶金机械、航天航空等特种领域。

NFB slewing ring excellent advantages: waterproof, dustproof, sand-proof, heat-resisting, cold-resisting, corrosion-resisting; High precision, Splitting, high loading; special requirement, special design, special customization.

NFB slewing ring can be used in many special field, such as war industry, new energy development field, Environmental protection underwater equipment, harbor machinery, mining machinery, rotating conveyer device, metallurgical machinery, aviation, filling machine, medical equipment and so on.

- 整体设计偏向重型载荷，适用于高承载领域
- 常规型号现货库存
- 应用领域：矿山设备，军工设备，冶金机械，旋转输送装置，医疗设备，环保设备，工程机械等
- 可根据使用情况特殊设计

● Heavy duty designing for high loading application.

● Normal types are in stock.

● Application: mining machinery, military industry, metallurgical machinery, rotating conveyer device, medical equipment, Environmental equipment, engineering machinery and so on.

● Customization accepted
